Mr. Gent Sejdiu reviewed the industrial report on the achievement of mission of College ESLG to the private sector and acknowledged that the cooperation during 2018 between ESLG and construction and real estate appraisal companies was great.

Especially one large achievement that is recognized by the banking sector is the Kosovo Real Estate Market Study that was conducted by College ESLG, which included students in research and Kosovo Realty Group staff. The study resembles the Swiss Real Estate Market Study and it was highly acknowledged by the banking sector for whom the study was dedicated.

Mr. Bajram Hoxha proposed that such a market study should be performed for other issues associating the construction sector.
